INFORMATIONS LÉGALES

Ce document a été écrit pour $\LaTeX$ avec l'éditeur VIM - Vi Improved Vim 9.1.2141

Il a été compilé sous Linux Ubuntu Resolute Raccoon (Le Raton Laveur résolu) 26.04 avec la distribution TeX Live 2025.20260124 et LuaTeX 1.22.0

Le fichier source a été réalisé sous Linux Ubuntu avec l'éditeur Vim.

J'aimerais beaucoup rendre disponibles mes sources en $\TeX$. Dans un monde idéal, je le ferai immédiatement. J'ai plusieurs fois constaté que des pilliers du Net me volent mes fichiers pdf, retirent cette dernière page de licence, pour les mettre en ligne et parfois même les rendre payants. N'ayant pas les moyens de mettre un cabinet d'avocats sur cette contravention à la licence CC BY-NC-SA 4.0, je fais le choix de ne pas rendre mes sources disponibles. La plupart des pdf proposés sur ce blog ne contiennent aucun filigrane, je ne les signe pas. Cela permet aux collègues, aux parents, aux élèves, de disposer d'un document anonyme dont chacun peut disposer en respectant la licence qui est particulièrement souple pour les utilisateurs non commerciaux. Je me suis contenté d'ajouter mes références sur cette dernière page. Seules les corrections d'examens contiennent un filigrane vertical. J'ai en effet constaté que certains sites peu scrupuleux, vendaient mes corrections alors qu'elles sont disponibles librement et gratuitement sur mon site. Cette solution est insatisfaisante, je n'ai pas trouvé mieux !

Les QR codes présents sur certains documents pointent vers le fichier pdf lui-même et sa correction. Ce lien ne pointe ni vers une page de mon blog ni vers une quelconque publicité. Vous pouvez le laisser si vous souhaitez que vos élèves accèdent au document en ligne avec sa correction.

Si vous êtes un enseignant et que vous diffusez ce document dans le cadre strict de votre établissement scolaire, inutile de vous poser des questions sur la licence ci-dessous ! Dans la mesure où vous limitez cette diffusion à votre classe ou un environnement numérique de travail privé, n'hésitez pas à vous servir !
